Fall 2019

Dear Sir or Madam,

The Farmland Working Group is a local non-profit educational organization. Our mission is to preserve the agricultural foundation of our region and promote smart growth in urban settings through education, outreach and action. This year the Farmland Working Group will give a \$500 scholarship to a graduating senior who provides a well-defined answer (please, no handwritten submissions).

Enclosed is one scholarship application form that students from your school may complete and submit. Submission deadline is a postmark date of the third Friday in February and is strictly enforced. Please make photocopies as needed. Please submit completed forms to our post office box or electronically to scholarships@farmlandworkinggroup.org.

Digital copies of the scholarship application form are available from our website, FarmlandWorkingGroup.org, or by request from our e-mail address.

This year we are asking interested schools to be placed on our annual notification reminder for the website posting of the application form. If your school would like to be added to the email list simply email us at scholarships@farmlandworkinggroup.org.

The Farmland Working Group is proud to have your school as a possible award site. We wish your students the best of success in their paths through life.

Sincerely yours,
Scholarship Committee
